

### COSTS

Home visits are \$60.00 with an additional \$.50/mile one way for mileage. There will be a \$10.00 additional charge for all phone calls (to schedule a home visit) that come in after hours or on weekends.

Discounts will be available when seeing more than one family member. A family member is considered mother, father and their children.

The charge may be increased if I do any procedures such as joint injections, suturing, casting, freezing of skin lesions, etc.

\*Prices may change without notice\*

*A complete price list is available on my website, by mail & in the office*

† See our informative pamphlet on Insurance, Medicare, Medicaid & HawkI for additional details.

# HOME VISITS

*Providing affordable, high quality healthcare in a relaxed setting to the uninsured, underinsured and the insured who are looking for an alternative to the "standard of care."*

## A Message From Your Provider

*After proudly serving our community for over 17 years, Dr. Blair recently opened a new family practice clinic in Keosauqua, IA.*

*He graduated with a medical degree in 1989 from the University of Iowa and is board certified by the American Academy of Family Practice.*

*Dr. Blair is embracing a clinical model that is far different than the usual health care. His goal is to bring back the "old doc whole family medicine fashion," while utilizing modern technology.*

*All records will be securely maintained electronically, and patients will have confidential access to their records, tests results and also be able to make secure online appointments.*

*The choice to see one physician over another is a personal decision. What I can offer is a relaxed setting with a compassionate and professional health care provider who will take you through the steps of the clinic visit from start to finish.*

*-Dr. Timothy Blair, MD*

## Let's Decide If A Home Visit Is Suited For You & Your Family...

### **How do I decide if I need a home visit?**

I am happy to see you in my office or as a home visit. Home visits are helpful for those who do not have transportation, are not physically able to come in to the clinic or for those who simply would prefer to have the convenience of their doctor coming to them.

### **How do you, Dr. Blair, decide if a home visit is appropriate?**

By talking to the patient or their family, I can evaluate whether a home visit is appropriate. There are some things that can not be effectively taken care of with a home visit, in which case, I would recommend another arrangement. The time that it takes to conduct a home visit, versus going to the emergency room, could be the difference between life and death. However, I am *always* here to assist the patient with their best care in mind.

### **How do I schedule a home visit?**

During my clinic hours, call the office (319) 293-7771. After hours, call (319) 293-6168. Or you may email me at [doctim@docblair.com](mailto:doctim@docblair.com) (Please Note: If it is urgent, it is best to call.)

### **What if you make a home visit and I need medication?**

I typically carry medications needed to treat infections. I also carry injectable nausea and pain medication (non-narcotics). I charge only what the medication(s) cost(s) me.

### **What if you make a home visit and I need to go to the hospital or see a specialist?**

I will assist you in arranging an evaluation at Van Buren County Hospital, or the facility of your choice. We will discuss all referrals and make the best choice for you.

### **Do you have family discounts?**

Yes! Family is considered a father, mother or child. The first patient will be \$60.00, and each patient thereafter will be discounted to \$40.00.

### **What methods of payment do you take?**

I accept cash and check only for home visits. Credit and debit cards are accepted in the office only.

**‡ If you have ingested a poisonous substance or are experiencing symptoms of a stroke or heart attack, including but not limited to shortness of breath, sever chest pains, weakness on one side, inability or difficulty speaking, these are medical emergencies and you should be seen in the nearest emergency room immediately. PLEASE DIAL 911. ‡**
